About us

Clarity, honesty and transparency are all qualities at the core of the way that iKoustic does business. The technical support team will work clearly and succinctly with all customers to fully understand the noise issues that are affecting you. Once this diagnosis is determined, iKoustic then provide a prescription or solution that matches your needs perfectly. As experts, with extensive knowledge of the industry and the products, iKoustic are well placed to provide the very best solution and advice available.

Services

Site Visit

We offer a site survey, along with an acoustic consultation, design and quotation service.

Assessment

We will complete a full assessment of your space and advise you on the best acoustic solution to your sound problem.

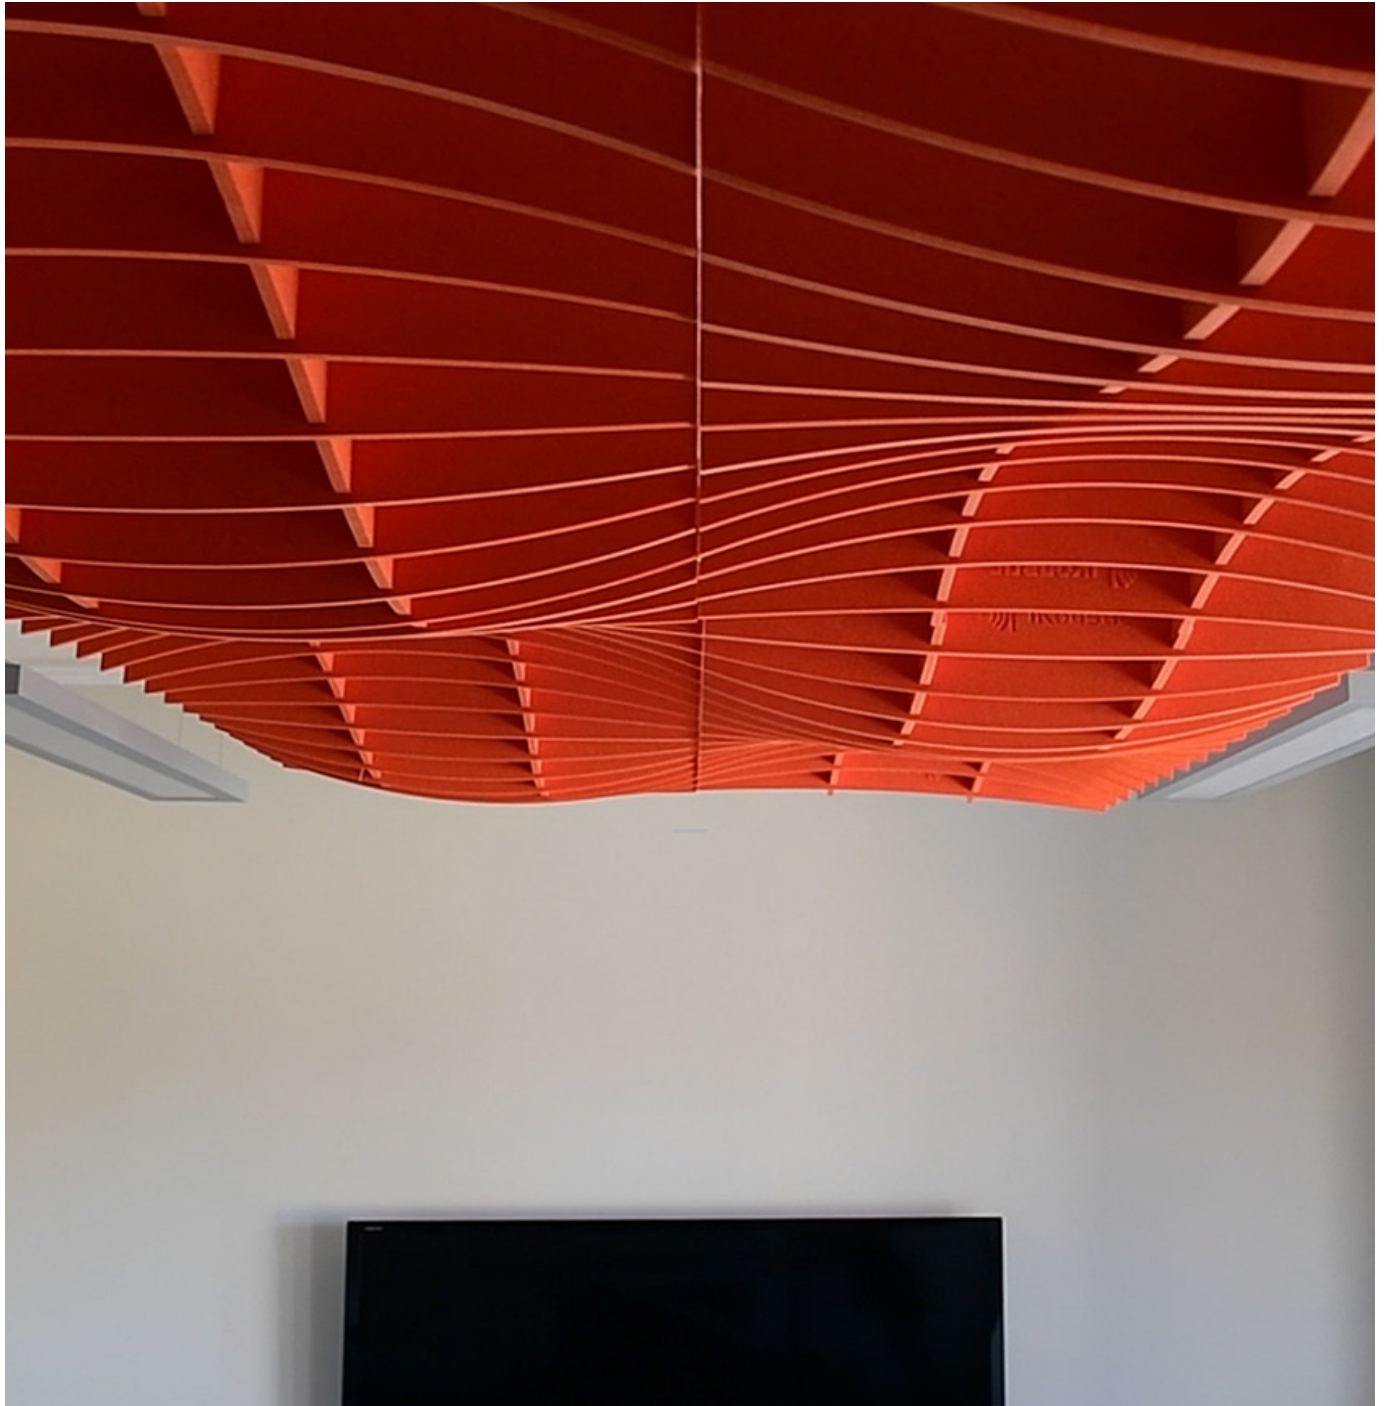

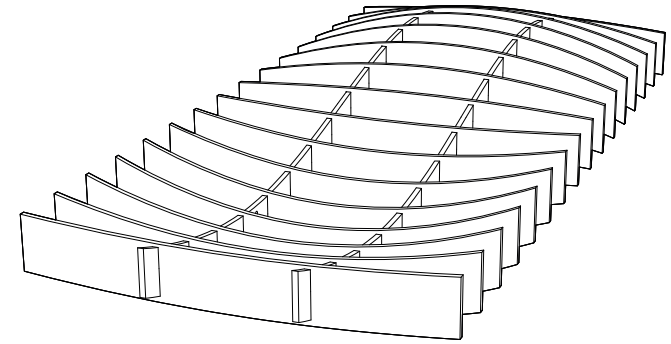

Installation

Our highly skilled acoustic installers have a wide range of experience installing a variety of acoustic solutions.

Adagio | Baffle Note™

The design of Adagio allows it to be used as a stand alone sound baffle or as part of a system where multiple units can be interlinked. Suspended from the ceiling, these are ideal for controlling reverberation in a variety of spaces including, offices, schools and other commercial areas.

Dimensions 2000mm (L) x 900mm (W) 320mm (variable height)

Composition PET Fibre Board
4 x Suspension Fixings
4 x Nylon Washers

Acoustics Class A, NRC 0.95
Absorption, Diffusion

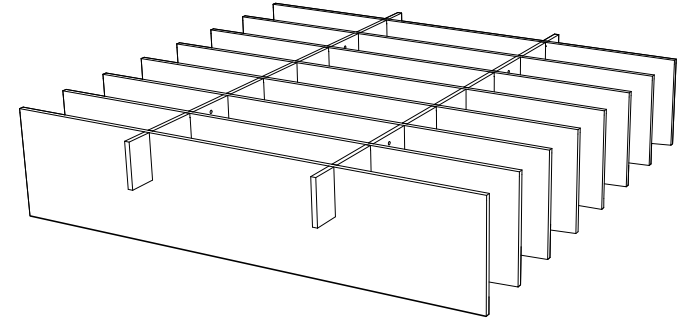

Fire Rating B - s2, d2

Beat | Baffle Note™

The Beat range is a modern, elegant and functional design for the home and workplace, it comes in a range of styles and colours – blending together art and function. Each baffle consists of two bars that support eight fins, the modular design allows them to be used as part of a system.

Dimensions 1180mm (L) x 1180mm (W) x 300mm (H)

Composition PET Fibre Board
4 x Suspension Fixings
4 x Nylon Washers

Acoustics Class A, NRC 0.95
Absorption, Diffusion

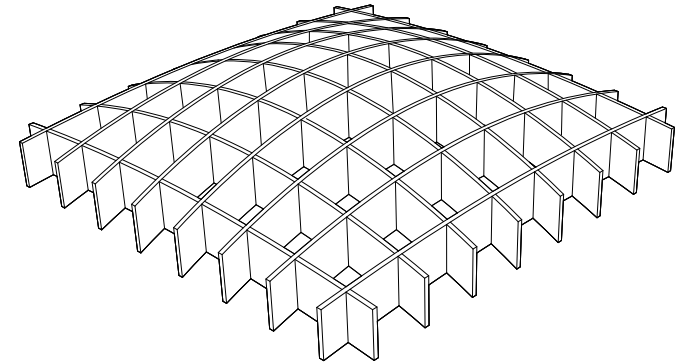

Flamability B - s2, d2

Octave | Baffle Note™

The Octave baffle is an ornamental, structure available in a curved or flat form, suspended from the ceiling. The Octave baffle absorbs sound energy, reducing the reverberation time of the room. It can be used as an individual baffle localising the sound absorption to a specific area or when used as a module can be used to create a visually appealing acoustic ceiling system.

Dimensions 1180mm (L) x 1180mm (W) x 280mm (H)

Composition PET Fibre Board
4 x Suspension Fixings
4 x Nylon Washers

Acoustics Class A, NRC 0.95
Absorption / Diffusion

Flamability B - s2, d2

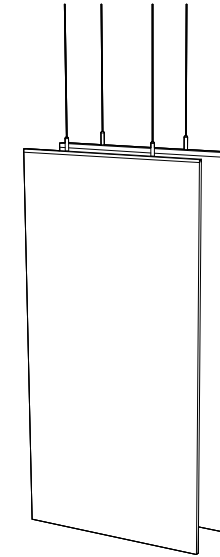

Screen Note™

Note™ can be suspended in the form of an acoustic screen or partition which can help divide a space and create a sense of privacy without constructing a wall. The patterns can be either waterjet cut or etched, depending on preference or performance requirements.

Styles Available:

- Birds
- Dash
- Trees
- Honey
- Plain

Dimensions 2400mm (L) x 1200mm (W) x 12mm (T)

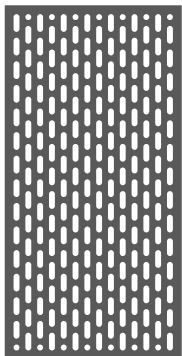

Composition PET Fibre Board
Note 12mm Chanel
2 x Suspension Fixings

Acoustics Class A, NRC 0.95
Absorption / Insulation

Flamability B - s2, d2

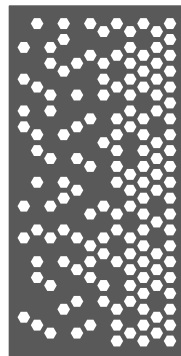

Birds

Dash

Trees

Honey

Plain

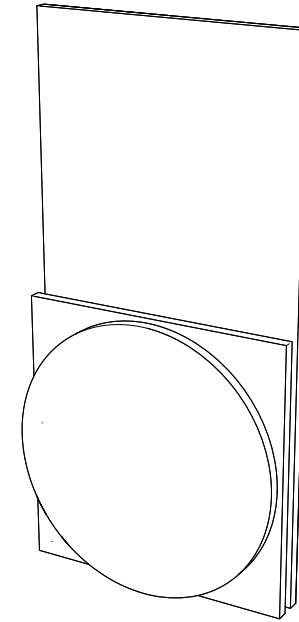

Raft Note™

Note™ can be suspended horizontally from the ceiling to create an acoustic raft. These can be used as localised absorption, specific to a space where reverberation is an issue. These can also be etched and waterjet cut to create different shapes or achieve different aesthetics.

Shapes Available:

- Square
- Circle

Dimensions 2400mm x 1200mm x 50mm
1200mm x 1200mm x 50mm
Ø 1200mm x 50mm

Composition Polyester Fibre Board
3/4/6 x Suspension Fixings
3/4/6 x Spiral Fixings

Acoustics Class A, NRC 0.90
Absorption / Diffusion

Flamability B - s2, d2

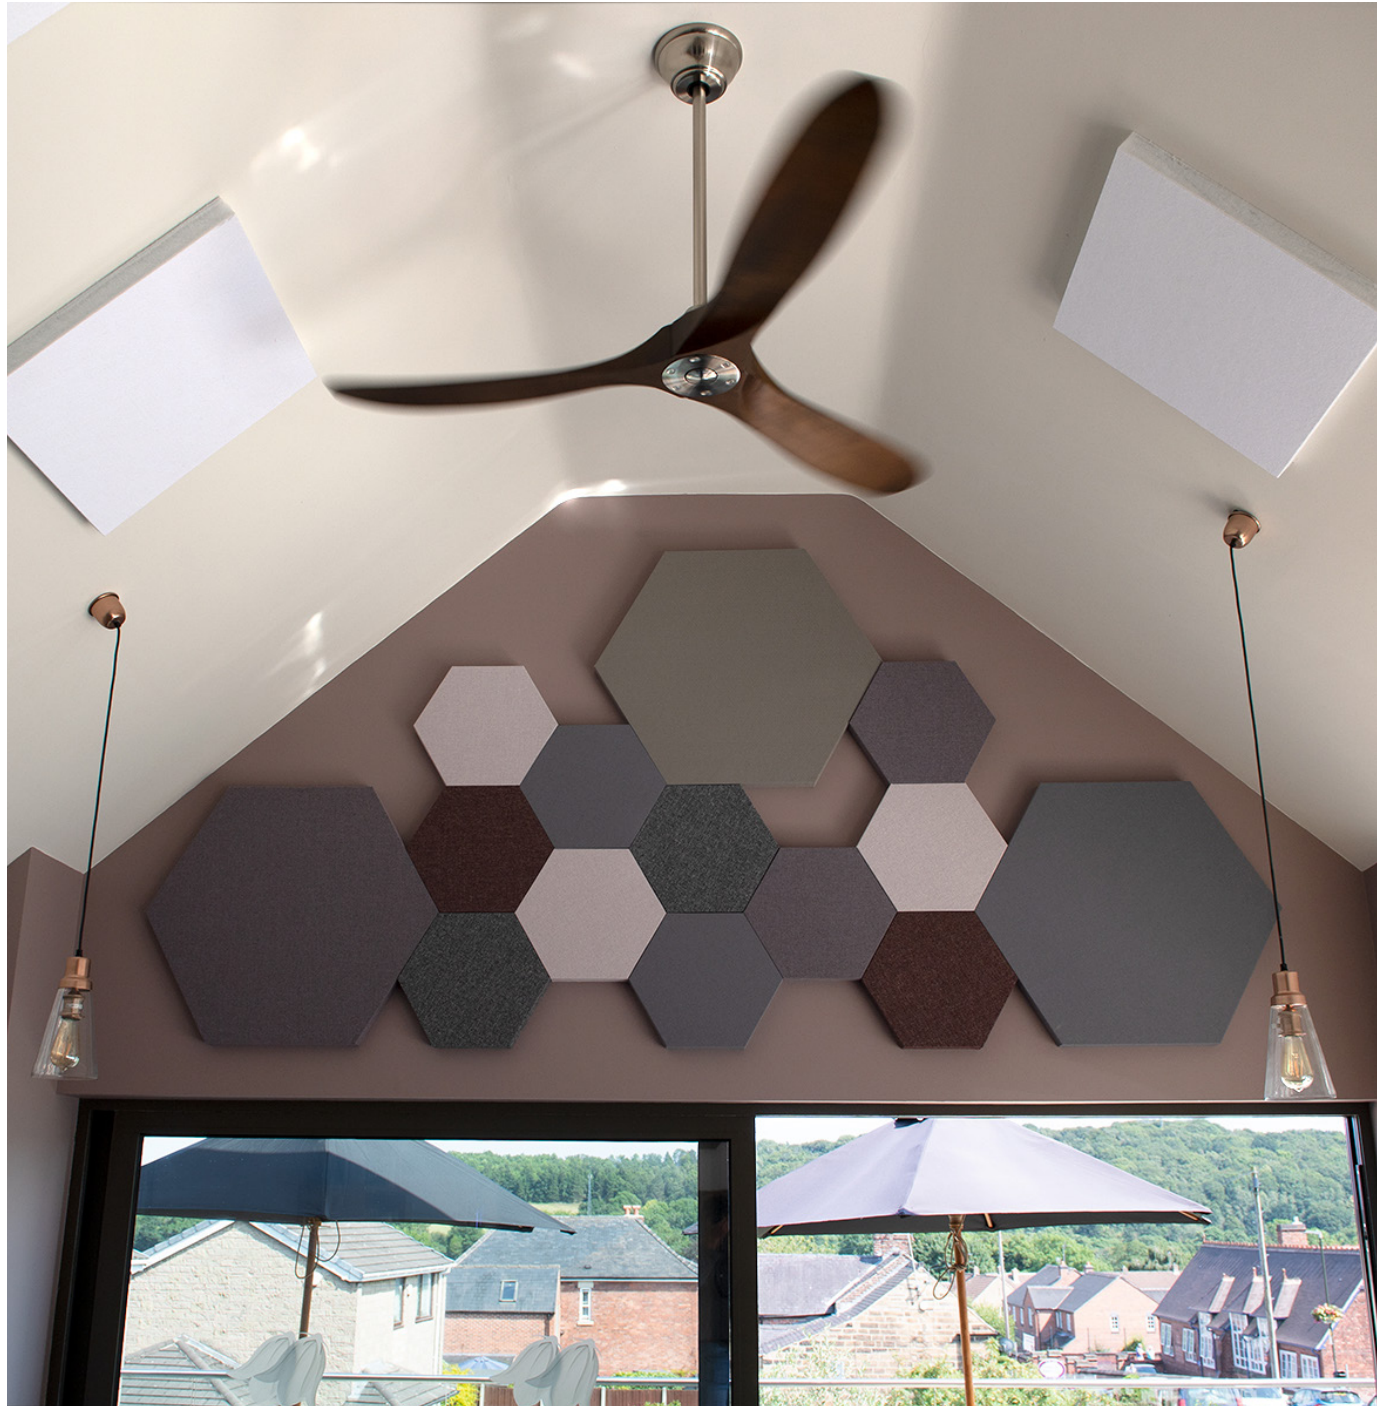

Soft Note™

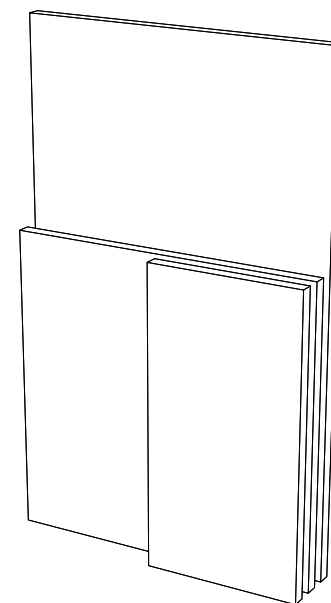

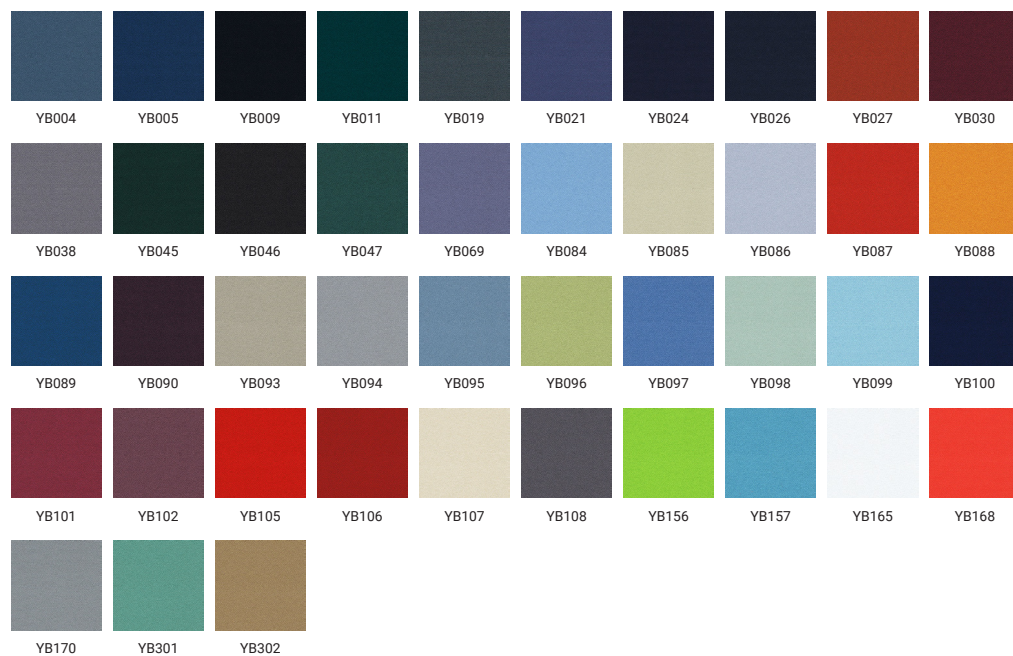

Soft Note™ is a high performing acoustic panel, that is fully customisable and can be used in a whole range of environments to reduce reverberation where the best results are required. These panels can be wrapped in a whole range of fabrics.

Styles Available:

Camira Fabrics

**Others fabrics available on request*

Dimensions 2000mm x 1200mm x 50mm
1200mm x 1200mm x 50mm
1200mm x 600mm x 50mm

Composition 50mm Fabric Wrapped Melamine
Camira Fabrics

Acoustics Class A, NRC 0.95
Absorption
