MuteStrip™ Product Data

Description: MuteStrip is visco-elastic material with excellent sound

dampening qualities, typically used to help dampen vibrations. It has a self-adhesive backing that can apply to most surfaces with a high initial grab, these surfaces will need to be level and

dust/oil free.

Dimensions: 2.5mm x 50mm x 6m

Mass:5 kg/m2Density:2000 kg/m3Thermal Conductivity:0.037 W/mKTemperature Stability:-20°C to 60°CCompressive Strength:4.84 Kg/cm2Tensile Strength:30 N/cm2

Features and Benefits: Very flexible and adaptable material.

Self-Adhesive backing for easy installation. Mould moisture and fungus resistant.

Easy to mould into tight spaces.

Ideal for use on Metal Structures to dampen vibration as well

as lining the perimeter of new stud framing.

Surfaces will need to be dust, dirt and oil free for a direct

application.

Highly resistant to water vapour.
