Materials	PET (polyester fibers)	Finish Colour	White, grey or black.
Diameters	800mm 1200mm	Applications/ Use	Still Note is ideal for offices, gyms, home studios, music studios, and restaurants.

Features & Benefits

- Easy to install
- Class A absorption material
- Material is >60% recycled
- Suitable for a variety of applications
- 100% recyclable
- Lightweight
- Minimalistic finish
- Range of sizes available

Performance Characteristics

Nominal Thickness
40±3mm

Density
50 Kg/m³ (IN ISO 845)

Thermal Performance
0.034 W/mK (IN 126674)

Absorption Rating
Class A | coefficient of 0.9

Fire Classification
B-s2,d0 (ISO 13501-1:2002)

Installation Instructions

Cutting

Polyester wool can be cut with a sharp ceramic knife, scissors, filament, band saw, or foam saw.

Fixing

iKoustic recommends that the rafts are installed using the suspension kits available separately.
