

# MuteClip® XP

## Product Data.

**MuteClip® XP** is uniquely designed with dual-density rubber polymers to reduce noise across a wide range of frequencies. Each clip delivers stable, consistent performance. The extended profile provides added flexibility to accommodate varying joist and room depths without compromising performance. It requires only one fixing point, which minimises contact with the ceiling surface and improves overall sound isolation.

<b>Dimensions:</b>	75mm x 45mm x 134mm
<b>Unit Weight:</b>	174 g
<b>Maximum Load:</b>	16 kg (36 lb) per each <b>MuteClip®</b>

---

**Features and Benefits:**

- Extended-profile design to accommodate varying room and joist heights.
- Dual-density rubber isolator.
- Dramatically reduces airborne and impact noise as a high-performing, slimline acoustic system. Only one fixing per **MuteClip®** allows for easy installation.
- Can be used on metal, wooden, brick and concrete structures.
- Reduced points of contact to help decouple ceiling and wall systems.
- Significantly improves noise control in both high and low frequencies.
